UNANIMITY OF JURIES.

A Much Needed Reform in the Jury System—The Opinion of Some Great Authorities—The Practice of Various States and Nations.

From the New York Herald.

It would puzzle the most astute reasoner to state any reason why a jury should be unanimous in order to render a verdict which would not be an equally good reason why a court should be unanimous in order to render a judgment. But courts always decide by a majority of their judges. The United States Supreme Court consists of nine members, the New York Court of Appeals of seven. A majority of the nine or seven suffices for rendering a binding judgment in every case which can come before these tribunals. The same is true of every court of judicature which consists of more than a single judge. For this reason all higher courts are composed of an odd number, thus ensuring a majority on one side or the other. What reason can there be either in the nature of things or the principles of justice why the majority of a jury should not have the same power of decision as the majority of a court? If courts were required to be unanimous it would perpetually happen that the important cases could not be decided at all. Unanimity would be

ABSURD IF REQUIRED OF COURTS,

and it is not less absurd when required of juries. Very able men who have thought deeply on this subject have regarded the unanimity of juries as preposterous. As a conspicuous and weighty example we cite Mr. Hallam, who after tracing the origin and progress of trial by jury, expressed his appreciation of the system and his scorn of this particular feature of it in emphatic language: "The grand principle of the Saxon polity, the trial of facts by the country is a principle (except as to that preposterous relic of barbarism, the requirement of unanimity) from which may we never swerve — may we never be compelled to wish to swerve." All the nations on the continent of Europe who have adopted the trial by jury reject what Mr. Hallam calls "that preposterous relic of barbarism, the requirement of an unanimity." The absurdity of this requirement was perceived by

ENLIGHTENED ENGLISH THINKERS

long previous to Hallam. Locke, for example, in the constitution which he drew up for Carolina, inserted this provision: "Every jury shall consist of twelve men; and it shall not be necessary that they should all agree, but the verdict shall be according to the consent of the majority." The late Dr. Lieber, a very learned publicist, was of the opinion that the very continuance of the inestimable right of trial by jury depends on a reform in this particular. In his excellent work on "Civil Liberty and Self-Government," he says: "It is my firm conviction, after long observation and study, that the unanimity principle ought to be given up." Dr. Lieber contributed a strong paper on this subject to the *American Law-Magazine* in 1857, but we have not space to recapitulate his arguments. We rather prefer to rest this reform on appeal to common sense, on the great fact that all Continental nations who have borrowed the trial by jury from England reject this feature of it. It is even repudiated in a part of Great Britain itself, with the sanction of the British Parliament. In Scotland, by the statutes, 22 and 23 Victoria, the verdict of nine jurors suffices for a verdict.

The Skating Corps of the Norwegian Army.

The corps of skaters, peculiar to the Norwegian army, has been lately reorganized, and consists now of five companies each of 110 men, which in time of war can be reenforced by calling in 270 skaters belonging to the landwher. The men of this corps are armed with rifles, and can be manoeuvred upon ice or over the snow-fields of the mountains with a rapidity equal to that of the best trained cavalry. The skates they use are admirably adapted for traveling over rough and broken ice or frozen snow, being six inches broad and between nine and ten inches long. In ascending steep slopes the men take a zig-zag course; tacking up a mountain side as a ship does against a head wind. As an instance of the speed at which they can go, it is mentioned that last Winter a messenger despatched from Rocrass at 3 o'clock in the morning arrived at Drontheim at 9:30 in the evening of the same day, having consequently accomplished 190 miles in 18½ hours.

Stealing a Bride.

Samuel Shook got married at Hillsboro, Ohio, and took his bride to the home he had prepared. Two rowdies of the neighborhood, desiring to play what they conceived to be a good joke on the husband, broke into the house that night while he was asleep and carried off the wife, frightening her into silence by branishing pistols. They hid her for three days, and then returned her to the anxious Mr. Shook. They said they meant no harm, but he refuses to regard the exploit as fun, and has had them arrested.

NEWS ITEMS OF INTEREST.

A hard-working girl who was recently married in Groton, N. Y., bought the groom's wedding clothes, paid the marriage fee and all other expenses.

The Philadelphia exhibition dies hard. The Fairmount Park commissioners insist upon a removal of the buildings, except those intended to be permanent, and the show managers resist this order.

Ada Clifton, an actress, became discouraged, in Cincinnati, because she could not get employment. Going into the green room of the Robinson Theatre, she drank a glass of wine, remarked "This is my last drink," placed a pistol at her breast and fired; but the wound did not kill her.

A St. Louis boy was delighted when a fine six-bladed jack-knife dropped to him apparently from the sky. Wrapped around it was a paper on which was written, "We are fastened in the dome; for heaven's sake help us out." Two girls had ascended to the top of the Court house, and closed a self-locking door.

Destroying Rabbits in New Zealand.

New Zealand has for some time suffered from an over supply of rabbits which have eaten up the growing crops with comparative impunity. But a short way with the depredators has at last been happily discovered. By an ingenious machine carbonic oxide gas is introduced into the burrows, after all the holes have been carefully stopped. The rabbits are soon in the condition of the Arabs whom the French smoked in their caves. In a few seconds a great hubbub is heard inside, but this quickly subsides. The burrow is dug open after a short time, when the dead bodies of the rabbits are found huddled together in a corner.

The People of the Earth.

The population of the globe may be roughly assumed at 1,431,000,000, divided thus: Europe, 309,000,000; Asia, 824,000,000; Africa, 199,000,000; Oceanica, 4,000,000; America, 85,000,000. It has been calculated from the mortality tables of known countries that the annual number of deaths throughout the world is 35,693,350, or that, in other words, 97,790 persons die every day. On the other hand, the balance of population is more than kept up by births at the rate of 104,800 per day. Seventy new lives are ushered in every minute of the twenty-four hours.

The "Bulletin" Free Seed Distribution for 1880.

Arrangements have been perfected for a free seed distribution among the subscribers of the "Bulletin" of several kinds of rare and valuable trees, vegetables and flower seeds. Great care has been taken to choose varieties that have been tested sufficiently in this country or elsewhere, to prove their value for the Pacific Coast, and such as are not readily obtained through ordinary channels. The object has also been kept constantly in view of obtaining such varieties as would prove, not only of benefit to our subscribers, but an advantage to the whole coast. Some of the more valuable of the list have not yet found their way into the catalogues of American seedsmen, and are not obtainable in this country. Several varieties have been ordered from England, France and Japan at large expense, and the actual retail value of the seeds to be presented to each subscriber will about equal the subscription price of this paper.

The distribution will be made during the ensuing winter, and will commence as soon as the last shipment arrives from Europe. There will be delay in the arrival of some of those from France on account of the necessity, in order to obtain perfectly fresh seeds, of waiting for the ripening of the crop of the present season. As soon as possible the date for commencing the distribution will be announced with full particulars through these columns, and in the meantime a description of each variety, accompanied in most cases by an illustration, will be published, and each subscriber will be able to judge of the adaptability of the different kinds to his locality.

In view of the seed distribution and the fact that the Reno Weekly GAZETTE, the Friday's "Bulletin" and the Weekly "Bulletin," are all given for $3, this is the greatest inducement to subscribe ever offered on the Pacific Coast. nov10-1mo

A Want Supplied.

There are many persons residing in the country and living at a distance from the nearest Postoffice who do not find it convenient to obtain their mail matter every day, and therefore do not subscribe for a daily paper, yet desire to be informed of the world's doings more frequently than once in a week.

To meet this demand it has been decided to furnish the Weekly GAZETTE, together with the Friday's and Weekly S. F. Bulletin, when all are sent to one address, at the same rate as has heretofore been charged for the Weekly Bulletin alone, namely $3 per year. For this amount subscribers will receive three papers each week, or a total of one hundred and fifty-six complete newspapers a year, in place of fifty-two as formerly.

Every farmer, merchant and miner will at once perceive the great benefit to be derived from receiving reliable market and mining reports twice a week, instead of weekly as heretofore. dec6-tf

Cinchona Rubra.

There are now two kinds of drunkenness, continuous and periodical. Either kind may be termed in all respects, a disease. That it is such is proved by the one fact—afflicted parties are frequently compelled to drink against their will or better judgment. Nothing will restrain them; neither the prayers of friends, the tearful entreaties of wives and children, nor the imminent ruin of their private affairs.

The principal predisposing cause of drunkenness is a sanguine temperament, a strong incitable nervous system. Daily observation shows that men excelling in body and mind are more disposed to drunkenness than those of feeble habits. These weaklings affected with headaches after drinking rarely become drunkards.

THE CURE—CINCHONA RUBRA.

Cinchona bark was introduced into Europe about the year 1638, but it was not until about 1737 that the plant producing it was known to naturalists. In that year, a Frenchman, on a journey to Lima, Peru, had the opportunity of examining the tree, a description of which (upon his return to Paris) he published in the Memoirs of the French Academy. Soon thereafter, Linnens, the botanist, gave it the name of "Cinchona Officinalis," in honor of the Countess of Cinchon, wife of the Viceroy of Peru, who had been healed miraculously (as the Jesuits of the day believed) by drinking from a pool of water into which the top of one of these trees, blown down by the wind, had fallen.

Cinchona stands at the head of all tonics. When taken into the stomach a pure tincture of it usually excites in a short time a warmth which diffuses itself over the whole body. After some moments have elapsed the circulation experiences its influence, as exhibited in the somewhat increased frequency of the pulse; and, after a few doses are given at regular intervals, the whole system becomes more or less beneficially affected, and all the functions undergo a moderate degree of excitement. Its action upon the nervous system is often evinced by a sense of tension, or fullness or slight pain in the head, singing in the ears, etc.; overdosing brings partial temporary deafness. But besides the mere excitation of the ordinary functions of health, it produces other effects upon the system which must be considered peculiar and independent of its mere tonic operation. That power by which, when administered in the intervals between the paroxysms of a disease it interrupts the progress of the malady, is something more than what is understood by the tonic property; for no other substance, however powerful or permanent may be the excitement which it produces, exercises a control over periodical afflictions at all comparable to Cinchona.

In all periocical diseases, such as occasional "spreeing" and ague, there are intervals of rest or freedom from the effects of the train of morbid actions going on in the recesses of the nervous system, and but one remedy is known which has the power during this intermission of preventing a return of the condition experienced prior to its administration. That remedy is Cinchona Rubra. Exactly how it does this has not yet been satisfactorily explained; but that it does it has been acknowledged for over a hundred years. Indeed, all well-read and experienced medical men admit that Cinchona has this wonderful anti-periodic property. Prepared and sold by Dr. R. D'Unger, Palmer House, Chicago, Illinois.

THE "GAZETTE" FOR 1880.

We can say with assurance that the GAZETTE will be a better newspaper in 1880 than it has any previous period in its history. Our facilities have been increased in every department, and with larger experience, we cannot fail to make a thouroughly live, reliable and newsy paper. It will contain in a condensed form, all general news Congressional, political, commercial, religious and social—while this part of the country will be scraped for home news. Everything of a vicious or immoral nature will be, as heretofore, rigidly excluded from its columns. It will, in short, be a complete family newspaper. The weekly is double the size of the daily, and contains all its reading matter. Although everything in our line has gone up, there will be no advance in prices. For terms to clubs, etc., see advertisement.

THE COMING CAMPAIGN.

The arithmetic men of both parties are beginning to figure on the chances of the next Presidential election. It is generally admitted that New York will be the pivotal state in the coming campaign. This conclusion is reached by the following calculation.

The electoral votes of all the States number 369. The Southern States cast 138, the Northern 231. The majority necessary to elect is 185. Supposing the "Solid South" casts all its votes for the Democratic candidate. He would still need 47 electoral votes to secure his election.

At the last Presidential election nine Northern States voted for Tilden. These were New York, with 35 electoral votes; Indiana, 15; New Jersey, 7, and Connecticut, 6. The three last named aggregate only 28 votes. As in addition to the 138 votes of the "Solid South," 47 Northern votes would be necessary to the success of the Democratic candidate, it is evident that he must have New York. This calculation is, of course, the most favorable that can be made for the Democrats, as it assumes, what is by no means certain, that the South will be solid for the Democratic candidate.

As regards the Republicans, the case is about the same. The votes of the Northern States, without Indiana and New York, aggregate 191, four short of a majority. They must have Indiana or New York to elect their candidate.

If the complexion of the incoming legislature of New York can be taken as a fair indication, the Republicans are likely to carry the State at the Presidential election, for they have an overwhelming majority in the new legislature.

WAGES AND LIVING.

The *Alta* has collected figures bearing upon the comparitive pay of mechanics in various places. The average rate of weekly wages is given as follows: Germany, $3 84; Brussels, 6; England, 7 45; New York, 12 45; San Francisco, 18 45. "While the mechanic gets 50 per cent. more in San Francisco than in New York, 150 per cent. more than in England, 250 per cent. more than in Brussels and 400 per cent. more than in Germany, he can get his mutton, beef, potatoes, cheese, sugar, coffee and tea, cheaper than in any of the other places mentioned. The prices of such articles are less here than in New York, where, according to Porter, they are on the average more than 25 per cent. cheaper than in Brussels. Thus a pound each of average bread, beef, veal, mutton, pork, lard, cheese, butter, coffee and sugar, costs $3 09 in Brussels and $1.43 in New York; while here the price would not exceed $1 30."

EDITORIAL NOTES.

The *Astorian* prints "Beautiful Snow" with the following introduction: "The poem which we reproduce on the 4th page of this paper to-day is one of the most touching and beautiful that ever found its way into print."

Ten years from now a newspaper may publish something like this:

The following is one of the very best jokes we ever met with—Scene.

The Indian nuisance is a knotty question and gives governments, big and little, lots of trouble. The crowds of Indians that lie about the streets day and night, add not a little to the troubles of the officers of the law in Reno. The District Attorney is prosecuting a case to day, where a white man is charged with descending to as low a moral stage as they. If he is convicted no one will be likely to offer him much sympathy. We publish the statute in another column and hope it will be enforced rigidly.

The purpose for which the pyramids of Egypt were constructed has long been a puzzle to the scientific world. Many theories have been advanced in regard to them, but all have been more or less unsatisfactory. Professor Richard A. Proctor, the distinguished astronomer, in a lecture at New York the other day, stated his belief that the pyramids were constructed as astronomical observatories, and adduced many excellent reasons for his opinion.

The Battle Mountain *Messenger* says 'General Kittrell is dying of pneumonia in Bedie." As he was here in Reno on Saturday, the report must have got twisted on the *Messenger's* grape vine telegraph.

JOTTINGS.

— A message in the telegraph office for Jacob Offner.

— Donald McKay wants to rent his house. See 50c ad.

— The Dog Valley saw mill has shut down, owing to deep snow.

— Sol Levy advertises a choice stock of goods suited for the season.

— Varney's class meets to-morrow evening. A social dance will follow the tuition.

— A gold watch will be raffled in the Arcade saloon next Saturday evening. See notice.

— Goeggel exhibits a great variety of elegant jewelry, watches etc., suited for Christmas gifts.

— Henry says it is doubtful if he can have turkey for Christmas unless Sierra Nevada stocks goes up.

— Buckley is opening barrels and boxes of china and glass ware to-day. He says "Christmas is coming."

— The firm of Kelly & Smith has been dissolved by the retirement of Mr. Smith. Mr. Kelley continues the business.

— Written examinations have been commenced in the School for Girls and will continue until the close of the term next week.

— It is rumored that Dr. Sheets is going to San Francisco on Christmas to be married. A niece of Judge Webster is the lady.

— There will be a meeting of Reno Chapter, R. A. M., to-morrow evening for work in the mark degree. A good attendance is requested.

— On his way home a few evenings since Mr. Bechtel walked into the ditch in front of the Congregational church, and got his legs wet. He is always sober, but the night was dark.

— Osburn & Shoemaker have imported a lot of beautiful goods for the holiday trade. Their stock has been selected with great care and taste, and will repay inspection. See advertisement.

— In drawing a bucket of water from the Lake Mill ditch, near the Virginia street crossing, the other night, Mr. Matiny fell in backwards. He got a good wetting and bruised his cheek.

— Several deer have lately been shot on the Peavine mountains. When a heavy snow falls on Mount Rose, the deer leave that vicinity through Hunter's creek canyon, crossing over to the Peavine mountains.

— F Lemmon is hauling considerable hay to his ranche for his own use. He bought sixty tons in Long Valley, and is now buying in this neighborhood. Last summer was so dry in Lemmon's Valley that he had no crop.

EXPENSIVE UNDERWEAR.

What Rich People Wear Next to the Skin.

When the only object in dress is to secure warmth and comfort, a very little money will go a long ways, but when fashionable caprice controls the purse the money flies. The outer garments must not only be of the finest material and the latest cut, but the undershirt and drawers must, also, be of costly fabric. Many nobby gentlemen spend as much for a suit of undergarments as would, a few years ago, have kept a small family well dressed for a year. At the White House there are silk suits which are worth sixteen dollars apiece, and some shirts of the finest angora wool; a perforated buckskin shirt is shown, worth thirteen dollars. A man rigged out with silk next his person and one of these between his under and over shirts, could face a very sharp wind without much fear of pneumonia. The great trouble is they are too warm and tight, and do not allow sufficient contact with the air. For this reason they are perforated with small holes which permit of circulation. White silk stockings worth two dollars and a half a pair (as much as is asked for the WEEKLY GAZETTE a year) are too pretty to hide in boots.

THE WHITE HOUSE

claims to have the largest stock of clothing in the state, and the finest goods that can be made. The walls on either side of the large room are filled with shelves and the shelves are loaded with goods to the ceiling; the counters are piled with coats, vests and pants, and underneath are boxes of men's boots and shoes, made to order by Buckingham & Haist of San Francisco, and warranted to wear a year. The stock embraces all kinds of gloves, heavy, medium, and fine; Jouvin's kids, in all sizes and styles; silk handerkerchiefs, shirts, collars, cuffs, etc. Blankets from the Oregon City Woolen Mills, such as took the medal at the Centennial, besides trunks, valises, satchels, etc. The White House has as good, if not better facilities for purchasing than any house in this state.

THE FIRM

is composed of Abraham brothers and Brown, the later of the firm of Toklas, Brown & Co., sole owners of the Oregon City Woolen Mills. This firm is turning out the finest goods made in the United States. Tailors say that their broadcloth is second only to the best six X beaver. The White House is naturally given great advantages by this connection, and may really be said to be a part of the firm, as the Abrahams and Mr. Brown are connected by marriage. Instead of buying goods from middle men, or after they have passed through two or three different hands, they come from the machine to the White House, saving in many ways the expenses which finally come out of the man who w ars the clothes. They take the wool off the back of the sheep and make it into overcoats. The prices at which the goods are sold are surprisingly low and the business of the firm is extending rapidly. Shipments go from here to small houses all over the state of Nevada and parts of California.

Women of the War.

ED. GAZETTE:—I was much pleased a few days ago to see in your columns an account of the continued good works of an old acquaintance, Mrs. Bickerdyke. or as we called her in the South, "Mother Bickerdyke."

She is one of the noblest and most effective women representing the loyal North on the battle-field and in the army hospitals.

Does she still reside with Mr. A. Banta? (An old acquaintance too.) We are glad to learn that she is a resident of the west, and hope some day to see her and renew acquaintance and assure her that the flight of time and carking care of life can never efface the memory of heroic and self-sacrificing deeds she performed in those terrible days of intestine war.

If this paragraph meets the eye of Mrs. Bickerdyke it would give us great pleasure to receive a line from her, and next summer, to have the pleasure of a visit.

I write in behalf of my sister (who has lost a finger) and self. My sister —Miss Rebecca Lemmon—served as matron in hospitals of Nashville, Chattannooga and Lookout Mountain for nearly four years, and would love dearly to talk over old times with any associates in the good work. Her name now is Mrs. R. L. Oleson, and she lives about a mile north-east of Sierraville on the stage road.

I am about to remove with my herbarium to Oakland for the winter, but will be at home again in the spring when I hope to see "Mother Bickerdyke. Yours J. G. LEMMON.

WHISPERS FROM WADSWORTH

The Northern Belle Mine Looking Up—Big Ditch—Change in the Machine Shops—Wood Bi. Hired—Dust Yet.

From our own Correspondent.

From Mr. W. Barrington of Bellville your correspondent learns the following particulars of the Northern Belle and the general outlook of the mines in the district south of this place. Of the Northern Belle Mr. F. says that a marked change for the better has been made in mine officers and developments of this fine mine. Mr. Woodcock, an old Comstock Superintendent, is now superintending the work at the Northern Belle and has as his foreman Mr. Jones, one of the best miners on this coast. These gentlemen saw very shortly after assuming their respective duties that very large bodies of rich ore had been overlooked, and that instead of the mine yielding sufficient to produce a net income,

IT WAS BEING RUN IN DEBT.

They began to work this property after the most improved methods, and the result is that some 60 tons of ore are daily taken from the mine, thus accumulating a surplus at the dump and mill. There is now a surplus of about 700 tons at the mill, which is about ten miles from the mine. A debt of nearly $100,000, which had accumulated under the old superintendency, has now been nearly quite paid up. And Mr. F. thinks it not unlikely that within the next three months the Northern Belle

WILL DECLARE A DIVIDEND.

Work has been resumed on a number of other mines and the mining outlook in several of the southern districts is far better than ever before. A scheme is on foot to bring water to Northern Belle from the White mountains, nineteen miles distant. The estimated cost for this most important enterprise is $200,000. Again some little talk is astir about the changes to be made in reference to the machine shops, etc. on this and the adjoining divisions east of here and already an article in the *Journal* commiserates Reno and Wadsworth's misfortune. We yet live, however, and have

NO FEARS OF AN IMMEDIATE CHANGE,

especially to the Humboldt House, nor that the freight business south will be transferred to Austin on the completion of the Nevada Central railroad. It is quite certain that the C. P. R. R. authorities have made no public statement of the place determined upon, as the new terminus of the Truckee division. At all events it will not be at Humboldt. Perhaps Winnemucca is the point quite settled upon, and it is also quite probable that work will not be wholly abandoned at the Wadsworth shops. Wadsworth has not taken any steps toward the observance of Christmas or New Years. We may develop a Christmas tree and probably a Leap Year party. The time is yet young and the possibilities of the near future are numerous. Down here we take things quite suddenly and act when the spirit is upon us.

L. S. B.

Wadsworth, December 8th, 1879.

A Dangerous Place on the Highway.

The approach to the Virginia street bridge at the north end needs additional railing. On either side of the embankment at that end there is nothing to prevent anyone walking off into the river. A drunken man is liable to fall over there any time. A stranger, on a dark night, might easily mistake his way and meet with a serious fall. A few nights back one of Reno's best known citizens came within an ace of walking off at the designated place into the river. A tumble on the rocks in that situation would be very serious, and possibly fatal. On a dark night a runaway or refractory team might easily plunge over the bank. Should an accident ever occur at that point it is probable that the County would be held responsible for damages. The protection of the lives of citizens seems to demand that a railing or other protection be put up there. There are a number of ditches crossing some of the principal streets of the town that should be likewise railed in or planked over.

Something Rich, Rare, and Beautiful for the Holidays.

Osburn & Shoemaker have just received from the Eastern cities, a choice lot of Holiday goods, consisting in part of Rare vases and toilet sets, fancy glass ware, celluloid and Russia leather sets, glove and handkerchief boxes, perfumeries, Minors' extract, colognes, card cases, photograph cases, etc., etc. In fact an endless variety of rare and beautiful things, suitable for Holiday Presents. Call and see them before making your Holiday purchases. dec10-tf

As Happy as a Big Sun Flower.

Bill just look at this bundle. Well I should smile, the bundle is bigger than yourself. He is he, but the best joke of all is, the whole business cost me only $7 35. You see, I have 13 yards of dressgoods, for $1 50; lining, for waist and skirt, 40 cents; thread 5 cents; braid 5 cents; 1 dozen buttons 12½ cents; 4 pairs stockings 50 cents; a shawl for 50 cents; one nice felt skirt 75 cents; 10 yards cotton-flannel for $1; 12 yards bleached cotton-flannel for $1; 4 yards scarlet flannel for $1 and a whole bolt of rushing for 50 cents. Where in thunder did you get it all? At Sol Levy's. You bet that is the place to buy your goods. dec10

THE YOUNG MAN'S CANE.

Its Various Uses to Its Owner—Not a Mere Ornament—Some Reflections Upon Its Value.

The young man of the present day is incomplete without his cane. When he has on his best suit of clothes and has his cane in his hand he feels like himself. The cane is necessary to him. He would feel weak without it. It may be wondered why it is that the cane is so indispensable to the young man. It is not strong enough to lean on, or to assist him in his walks. The young man does not fancy a stout walking stick. It is too heavy and clumsy for him.

The fact is that the cane is a companion to the young man. There is an intellectual sympathy between it and its owner that is touching to see. The young man will sometimes sit with his eyes apparently fixed on vacancy, sucking the head of his cane. He may appear to be absolutely idle at such a time, but that is not the case. He is communing with his cane, drawing inspiration from it. At such a time the cane and its owner are exchanging ideas upon subjects of vital interest to the young man. It is wrong to suppose that the cane is useless to the young man. He can beat his leg with it. In this way he knocks the dust out of his trousers. It is also exercise for him, and one of his favorite amusements. Besides, the cane is useful to him to punch holes in the ground. A young man has been known to busy himself for half a day prodding the earth in that fashion. He should be encouraged in the practice. He might some day discover something valuable in the ground by punching it. The woodcock makes his living by boring in the ground, and why should not the young man?

The young man needs occupation—something for his hands to do. This need he satisfies with his cane. He holds it and twirls it incessantly. In this way he saves himself from the vice of idleness.

A Detestable Beast.

A man named Lyman Gortchell was arrested this morning, and will be tried in a few days, upon a charge of cohabiting with a squaw. The law is very explicit, and if the evidence is sufficient, a pretty heavy punishment can be inflicted. The statute provides that if any white person shall live and cohabit together with any black person, mulatto or Chinese in a state of fornication, such person so offending shall, upon conviction thereof be fined not more than $500 nor less than $100, or imprisoned not longer than six months, or both.

Santa Claus Items.

Isaac Barnett has most flourishingly prepared for the coming Holidays. Profusions of articles can be seen at his store for children, misses, ladies, brides and grooms. The assortment of dress goods is magnificent, an immense stock of twenty and twenty-five cent goods, dazzling thirty seven and fifty cent goods. Cashmeres of all colors, and very cheap black and colored silks. For all these dress goods you can find trimmings, like plain satins, striped satin, striped velvet and satin, brocaded velvet, plain silk velvet in all colors and shades. Fringes and lace.

The fancy goods department surpasses anything ever brought to Reno. A person's heart laughs to see the lovely ties, scarfs, bows, silk handkerchiefs, linen handkerchiefs with colored borders. Gloves you can get with from three to eight buttons and all colors and shades, and hundreds of other things too numerous to mention.

For house furnishing presents, you can get blankets, spreads, tablecloths, napkins and towels in abundance, at all prices. Don't fail to go to this old and reliable firm, if you want goods of the latest styles and cheapest prices. It is Isaac Barnett, Barnett's Block. Wall paper, oilcloth and carpet, a specialty.

The Leading Dry Goods House.

I have given unusual attention to the selection of my Fall and Winter stock, and offer to the trade a full and complete line of everything found in a first class Dry Goods store, at prices unusually low. On my counters can be seen the finest and most extensive stock of rich and elegant dress material ever seen in this city, and the public generally will consult their own interests by purchasing their goods of me. Samples are sent to any part of the country on application with their low prices attached.

JEWELRY

$75.00 worth for $15.00,

—AND A—

Solid Abyssinian Gold Watch

FREE! FREE!! FREE!!!

The above offer is genuine, although at first sight you would consider it impossible. We will explain: Since we first established our business here, March 1st, 1878, we have paid particular attention to the buying of Bankrupt and Auction lots of Jewelry and Watches often buying at as low as one-tenth their value, and in no instance have we paid over one-sixth the manufacturers' price. Since starting we have always been able to dispose of these goods in Chicago and through our regular customers throughout the country at nearly regular prices, as fast as we could procure them, but owing to the large number of failures among the heaviest dealers and manufacturers throughout this and other countries during the months of June, July and August (the time when the jewelry business is stagnant), we have now on hand an immense stock of the most desirable goods we have ever handled, and which we have bought at lower prices than ever before. In order to dispose of this entire stock in the most speedy manner possible, and make room for new ones which we shall continue to buy, we have hit upon the following novel plan:

We propose to give you a list of the most desirable of these goods, giving opposite each article its regular retail value, and sell to you at the rate of Five Dollars' worth for $1. For instance, on receipt of 50 cts. we will send you, POSTPAID, any article to the value of $2 50; on receipt of $1, articles to the value of $5, and so on throughout the entire list. Below we give a list of the most valuable of these goods.

All of this jewelry is of a good quality, but, of course, the quality depends greatly on the price: for instance, the $2 50 articles are of a much finer quality and finish, besides being heavier than the 85c. ones.

TO AGENTS:

For the benefit of parties wishing to act as agents for the above goods, we make the following special offer:

On receipt of a $15 order for our Jewelry, as per above offer, we will send the goods ordered, and make the party getting up the club a present of any one of the following watches:

1 Pure Abyssinian Gold hunting-case Geneva Watch.
1 Pure Abyssinian Gold open-face Geneva watch, stem-winder.
1 Pure Abyssinian Gold stem-winding watch illuminated dial, by which you can tell the time in the darkest night.
1 Pure Abyssinian silver hunting-case Geneva watch.

Any of these four watches will be sent alone for $6 50, or the watch and either a Gent's heavy Abyssinian Gold vest chain and charm, or a Ladies' solid Abyssinian Gold long opera or opera guard chain, for $8.

Agents who cannot send the full $15 00 at once can send small orders as they procure them, and when said orders shall have amounted to $15, we will send the watch FREE OF FURTHER CHARGE.

Read What the Chicago Press Say of Us, And Send in Your Orders.

The Sentinel, of Chicago, Sept. 9, says: "We call the attention of our readers to the new advertisement of the Inventors' Agency, No. 116 E. Washington street, Chicago. What the Inventors' Agency agrees to do, they will do. The Sentinel has advertised for the concern since its first publication, and we have yet to hear of the first complaint against it."

The Chicago Express, Sept. 4, says: "The attention of readers is called to the advertisement of 'The Inventors' Agency,' office and rooms located at 116 Washington St., Chicago. From personal inquiry and on the recommendation of the city press, we think our friends can do no better when wanting goods in that line. Give them a trial."

The American Stockman, Sept. 11, says: "We believe this institution perfectly sound and responsible; and consequently persons need have no hesitation about sending for what they desire."

As to our responsibility we also refer you to the following firms: Blomgren Bros., 163 & 165 So. Clark St., Chicago, Ill.; Miller, Wagner & Umbdenstock, 119 So. Clark st. Chicago.

Before Ordering, Read the Following:

All sums of money to the amount of $1 or over, should be sent by Registered Letter, Money Order or Draft on New York or Chicago. We will hold ourselves personally responsible for any money sent as above directed. All orders under $10 strictly cash. On orders of $10 or over, $5 must accompany the order, and balance, when desired, will be collected on delivery, but no goods will be sent C. O. D. to a greater distance than 500 miles. Any money received for these goods after the stock is exhausted will be immediately returned. Postage stamps will be taken the same as cash in any amount less than $100.

If on receipt of goods you are not perfectly satisfied, return them immediately in good order, and we will refund your money.

Illustrated Catalogue of Watches, Jewelry, Notions, Novelties and New Inventions sent free on application.

OFFICE OF THOMAS PRICE,
Sacramento Street.
SAN FRANCISCO, May 24, 1879.

Messrs. J. S. Taylor & Co.—GENTS: I have made a careful examination of bread and biscuit prepared under my own direction by the use of your Champagne Baking Powder, and find that they do not contain alum or any other injurious or deleterious ingredients.

Respectfully submitted,

THOMAS PRICE, Assayer and Chemist.

INTERNATIONAL HOTEL.
VIRGINIA, NEV., Sept. 19, 1879.

Messrs. James S. Taylor & Co., 116 Front St., San Francisco—GENTS: I can make better results with one teaspoonful to a quart of flour with your Champagne Yeast Powder than with three teaspoonfuls of any other I have ever used. If there is a yeast powder anywhere in the world equal to it, I have never seen or heard of it. As a baker I pronounce this powder simply perfection.

AMBROSE HUSSER.

Mr. Ambrose Husser has been with me 24 years. He is a first-class baker, and I endorse the above. A. HANAK.
